NOTIFICATION AND SIGNATURE OF THE FOLLOWING REQUIRED PRIOR TO APPROVAL

Engineering/Street Dept. on _____ Traffic Control Plan Reviewed by: _____

By: _____ Building Official : _____

I understand that in consideration for the issuance of the requested excavation permit, that I, permittee, shall assume total responsibility for the final cleanup and removal of all trash, debris, and other construction materials or residue generated as a result of this permit. I understand that I am responsible to install and maintain appropriate erosion control measures for the duration of the excavation. I understand that I am responsible for restoring the project site to a condition reasonably similar to that prior to the project initiation. I assume responsibility for and damage to public property and street right-a-ways caused during the course of the permitted project and as determined per City inspection. I agree to furnish a bond in favor of the City of Kosciusko equal to the amount of 1 ½ times the construction costs to cover any repairs to public facilities. The said bond may be waived by the governing authority upon determination of the financial condition of the applicant. I agree that I will maintain my project in a reasonable condition and that it will pose no additional risks for vehicles, pedestrians, and City personnel. By way of granting a permit for excavation, the City of Kosciusko shall not assume any liability for any damages caused as a result of the applicant's permitted project and the applicant agrees to hold harmless the City of Kosciusko from all liability and will indemnify and defend the City therefrom. The applicant/owner agrees that if the City requires the utilities installed by the applicant/owner to be moved due to transportation or other City related improvements, the applicant/owner shall relocate those utilities within 60 days in accordance with all applicable laws and at no cost to the City when appropriate.

All excavation permits expire 60 days from the date of issuance or activation (City's activation notice must be received 48 hours prior to the commencement of the project) and all work must be completed within this period or may receive a 60 day extension upon written request.
